

Portfolio Website - Sir Herlerdhyre

Introduction

This is a demo portfolio website I designed and developed to showcase my frontend development skills. This project demonstrates my proficiency in HTML, CSS, Bootstrap, and JavaScript. It also includes responsive design techniques to ensure optimal viewing across various devices.

Features

- A clean and professional homepage introducing myself.
- Navigation bar with smooth scrolling.
- Downloadable CV link.
- Contact form for users to send messages (front-end only).
- Social media links for connecting with me online.
- Fully responsive layout using media queries.

Tools Used

- HTML5
- CSS3
- Bootstrap 5
- JavaScript
- Boxicons for icons

Folder Structure

The project folder contains the following files:

- index.html (Main HTML file)
- portfolio.css (CSS stylesheet)
- Sir-Herlerdhyre.png (Profile image)
- Aladire_Solui_Frontend_Intern_CV.pdf (Downloadable CV)

How to View the Website

To view the website, open the 'index.html' file in any modern web browser. Ensure that all associated files (CSS, images, and PDF) are in the same directory.

Conclusion

This project reflects my journey and progress as a frontend developer. It serves as a digital business card and a demonstration of the skills I've acquired.
